2nd Request Regarding Director of Communications, Delaine Faris

David Hopkins

I recently submitted Ticket #17669.

Ms Faris was assigned the Ticket, and 3 days later issued me the following in response:

" 17-Jul 10:47am - Delaine Faris replied

Delaine Faris

Thank you for your inquiry.

Delaine Faris

Director, Communications and Community Engagement"

The Ticket was then closed. I feel that this must have been in error, because the response was "blatantly non-responsive".

I am requesting a response to my original Ticket #17669, which is attached as a printout for reference. I should note that since my original question, multiple sources have surfaced stating that Ms Faris is actively engaged with Non-POA Facebook Group Moderators, and jokingly stated that she has them on "speed dial" and is actively encouraging the deletion and censorship of select posts by property owners.

This is a serious matter, and I am requesting Ms Faris activities and employment be reviewed. I am also requesting a full detailed response containing the results of said review as some of her activity has directly infringed upon my rights.

I have requested a copy of the Employee Handbook and Administrative Policies in another Ticket (#17712).
