Important Update on the Second General Election, February 5, 2026

Hello Neighbors,

While the number of ballots received for the Second General Election is encouraging, we still have a ways to go to meet our 35% quorum. The highest number of ballots received to date is from our Dropbox at the Postal Facility, which is picked up each week by a secure courier from our auditor, Mauldin and Jenkins. We are also gratified to see the number of Property Owners who are submitting their ballots via email directly to Mauldin & Jenkins. The number of ballots received through the US Mail continues to be minuscule, which is what caused the POA to rerun the General Election for a second time.

So just a reminder:

- 1) If you live within Big Canoe and are here during this cold winter, we encourage you to drop off your ballot in the secure drop box located in the Big Canoe Postal Facility
- 2) If you are away from home now, the easiest method is to take a picture of your marked ballot and send it via email to bigcanoeballots@mjcpc.com. You will receive an email acknowledgement as soon as M&J receives your email.

There have also been a few Ask the POA questions about the section of the

ballot that allows you to vote to lower the quorum to 25% from 35%. This is allowed by our covenants, and your vote applies to this election only.

If you need ballot support during the voting period, please send an Ask the POA. Thank you for participating in one of the most important actions we can take as Property Owners...helping to choose our own governance for the next three years!

My best,
Fred Schultz
Election Committee Chair
